

THE LADIES' COLUMN.

FOR THE SEASON.
There is a greater demand than ever for high-class fabrics of every kind for ball and evening wear. Fortunately, the construction of any sort of costume is simplicity itself, and the only thing that counts is the material. It is not difficult to find a dress, so that there need be no difficulty about the ornaments, but the material is the thing.

Braded trimmings and colored silk velvet are much in demand this season for trimming evening costumes. The fancy laces and of tailor-made coats are a rule, covered with silk velvet, some of the best quality. Rich quality brades or guipure lace is ticked on to the velvet, or the lace is used instead. All the best skirts for outdoor wear are still made to be found in the velvet, but there is slightly more fulness at the back, and for obvious reasons the circumference of the skirt is not so great, and most skirts for the winter call the ground all round, and only measure a little over three-and-a-half yards in circumference. The fashion of wearing a coat made of a different material to the skirt is becoming more popular than ever. The skirt of the idea is very economical, as it enables one to utilise odd remnants of materials, and alterations can be readily made without ribbons.

An outdoor costume costs next to nothing if made at home, for woolen dress fabrics were never so low in price as they are this season, and short lengths of suitable materials may often be met with at less than cost price at one or two of the large drapery establishments on remnant days. For instance, four yards of fancy fawn would make a warm blouse, and three yards and three-quarters yards of double width serge or cloth would produce the skirt, and a costume of this kind is about the most economical that one can adopt for ordinary wear and easy to make.

MILLINERY MODES.
The hats of the hour have not been so decorative from the front view as it is economical, which is not much considered in their construction. PARISIAN EVENING GOWNS.
For evening wear, Parisian velvet will be the predominant material, varied with embroidered velvet upon a lighter shade of silk. Purplish velvet, with black and Alençon laces, and the low bodices, and the double string of jewels, that served for sleeves last winter, will be much in demand. The new style of evening dress is a simple, straight, and the lower portion of the skirt, instead of upon the shoulders. Embroidered silks will be much in demand. AN EXCELLENTLY PRETTY EVENING DRESS for a young girl is made of white chiffon over white glaze. The skirt is made of white chiffon edged with black velvet, and the bodice is made of white glaze with black velvet trimmings. CHRYSANTHEMUM SALAD.
One of the newest things in the way of a salad is a chrysanthemum salad. The small, rather dark yellow flowers are the most useful, and they are served with a dressing of oil and vinegar. FOR THE COMPLEXION.
The latest cure for a thick or spotted complexion is to wash it with parsley-water. It is a simple remedy, and it is very effective. The latest cure for a thick or spotted complexion is to wash it with parsley-water. It is a simple remedy, and it is very effective.

CHIFFON BLINDS.
The latest thing in Paris is for women to furnish their rooms with no heavy curtains or blinds. Everything is as light and elegant as possible. The latest thing in Paris is for women to furnish their rooms with no heavy curtains or blinds. Everything is as light and elegant as possible.

TO KEEP GLOVES FRESH.
When the price of a pair of gloves is a consideration, it is not surprising that it is so. The best way to keep gloves fresh is to wash them in a solution of salt water. The best way to keep gloves fresh is to wash them in a solution of salt water.

YOUNG FOLKS' COLUMN.

CATHERINE AND THE JOKE.

Marjorie's merry and sprightly.
Full of her whimsical and jokes;
And of her wit and wit,
Demurest of little folks.
One night, at the sandman's hour,
In their little white bed upstairs,
Two little maidens were tucked in,
After their whispered prayers.
"I'll tell you a joke now, listen!"
"What's that?"
"A little girl, once upon a time,
And her dear little, dear little voice ran on
In her own bewitching way.
And then, of a sudden, it ended,
So mother and father and her hand fast, and
And I knew that Marjorie waited,
Impatient, for her applause.
But nobody laughed in the darkness.
"Can't you see a joke, Catherine Park?"
Marjorie cried, and Catherine replied,
"Of course I can't, in the dark!"
"Oh dear, I am awfully tired of this geography lesson!" sighed a little girl.
"Rather a dry subject, no doubt," said her papa.
"No," cried the little girl, "it is a very funny one - it is all about rivers."

FOR SHARD WITS.
Half a carman and a whole country form the name of a beautiful flower - Car-nation.
My first is a lady, my second a nobleman, and my whole a blundering idiot.
My first is an animal, my second an article, my third should be used every day, and my whole is a very good thing.
My first is a vehicle, my second a proposition, my third is a word, and my whole is a very good thing.
My first is a ship, my second is a vowel, my third is a precious metal, my whole is a flower - Mar-jorie.

THE THREE TRAVELLERS.
Three men met at an inn in Faversham. Two of them had brought their provisions with them, but the third had not. They were travelling to London.

TEMPERANCE MEETING AT
ROTHWELL.

On Sunday night last, a service was conducted in the Rothwell Temperance Hall, at which Miss Sidebottom read the story "Poor men, come home." The narrative was suitably illustrated with lime-light views, thrown to the sheet by Mr. W. Stead, in a very effective manner. There was a crowded audience and the meeting was much enjoyed.

E. WILLIAMS, Hon. Sec.

**THWELL AND DISTRICT BAND
OF HOPE UNION.**

To the Editor of the Bethwell Times.

Sir,

At the last meeting of the above committee, following resolutions were unanimously adopted—
[that this meeting regards with the very strongest
probation, the practice of diseased persons sup-
plying intoxicating liquors to children, either for their
consumption or for the consumption of others]

the premises, believing that much harm has been caused and will continue to result to the children and eventually to the nation from the practice in question.

"That this meeting regards with great satisfaction the nearly unanimous recommendation of the Royal Commission on the Licensing Laws that the sale of intoxicating liquors should be prohibited to children or 16 years of age."

"That this meeting pledges itself to oppose the practice of sending children to public houses by bringing them to the notice of the publicans and others, and also by taking part in the efforts to effect the prohibition of the sale of drink to the children or 16 years of age."

"We may claim, I think, that the working classes

others are not averse to a measure for keeping them away from the public house, and even if it is not a law, it is always be remembered that the authorities of the sort have been in force for centuries. When, for instance, the law closed factories, mines and chimneys to little children, and when it drew wide open the door of the school that all its flock in, there was opposition, and a great talk about interference with parental liberty. That time happened when the parents nor universally shared with the law, and the law was not so much in accordance with equity as it is now. Richard prevents their children becoming physically stunted, crippled, and morally and intellectually dwarfed, deformed. And so will the righteousness and fitness of the law we are advocating be recognized, we which will stand like a guardian angel between

the two paths of innocence and vice. Trusting you will allow these *few lines* to be inserted in paper, as a reminder to the workers in our Sun-Schools and Bands of Hope, and all interested in welfare of the children, and the spread of truth righteousness.

I remain,
On behalf of the Committee,
ARTHUR CHAMBERS,
Secretary.

HIGH-CLASS CONCERT AT ROTHWELL.
Some difficulty is necessarily felt in reporting an event in which the writer is somewhat interested, and we have therefore endeavoured to gain the opinion of persons altogether unaffected in the getting up, or financial benefits of the very excellent and excellent concert given on Tuesday evening last in the Mechanics' Hall, and it was most gratifying to find so general a congratulatory verdict on the programme as rendered.

The performers had been carefully selected, furnished with plants kindly supplied by Mr. Fielding, and the room was alike free from over-warmth or draught, so that the audience were made to feel almost as comfortable as in their own homes. The programme sheet was in itself a notable, being decorated with photos of some of the theatricists, who were all of first class quality, and it is said so fine an all-round company has not previously been heard in Rothwell, while the contents of the programme have earned for the concert the character of being truly "high-class."

The concert opened with a grand rendering of the overture to "Rossini's" "Tancredi," by Mr. W. N. Hudson, of Leeds, who also gave the audience help to the music in his sympathetic and unerring pianoforte accompaniment.

Miss Jessie M. Seaton, a soprano, first claims attention, and although she has several times lately sung in Rothwell (her native town) she was most cordially received, and was encased in both her songs. In the first part Miss Seaton sang "Lola," a new song by Chaminade, a somewhat florid composition, in which numerous vocal difficulties are cleverly mastered, and in a charming and engaging manner. By request, Miss Seaton kindly gave the favourite "Springtime," in which various bird-calls are introduced. In her second selection, "Maiden's" "Dear Heart" was rendered in a charming manner, and the "Minstrel Boy," was sung on a second recall. It was subject of general remark that this young lady's voice, while retaining its sweetness, has greatly strengthened in the past year.

Miss Olive Croswaithe, of Halifax, always finds an appreciative audience at Rothwell, and her performance of "Concerto" "Judith," showed such a wide range of voice and clearness of tone as only be gained by careful training; on a closer study there was hearty applause, which Miss Croswaithe duly acknowledged.

In the second part, the statuesque declamatory style in which "Judith" was given, is rare, and the patriotic fervour exhibited in her singing of "There's a land" or "My Queen," composed by Alceon, in Diamond Jubilee year, a most appropriate selection for the present day, and one in which Miss Croswaithe's vocal powers, her voice reaching quite above the ordinary range of a contralto singer. In her encore song, the young lady let herself go entirely, the story of "Uncle John," and Aunt Margery, being given with exquisite taste and action.

Mr. Dan Billington, the renowned Yorkshire baritone, was, of course, the principal attraction, his magnificent voice becoming more sonorous as the years go by, his willingness to give of his best being most evident throughout the evening. Not only did he put down three of his finest songs in the programme, but in response to loud calls, he sang three others, and really did his utmost for us out here in a small room, as truly as if he had had one of the big halls in the city. To hear "The Desert," (as one gentleman said) "was well worth the money," the graphic description of a desert traveller's experience being vividly portrayed in Mr. Billington's hands; and the folks were delighted to hear "Tommy Atkins" as an encore. Later on, we had "The Yeoman's Wedding," a fine new song, in which the talented singer, in a charming manner, set the fire and energy of the *f* crescendo movements, and the pathetic beauty of the softer passages. On being recalled, everybody was delighted to find that "Father O'Flynn" was coming, a song in which the singer, with humour of the noted basso finds ready entrance. Towards the close of the evening, Mr. Billington again came forward, this time with that set of all bass singers, "The Village blacksmith," being vividly portrayed in Mr. Billington's hands; and the folks were certainly here on an object lesson to most local musical friends; every sentence, every word, received its proper attention, resulting in a splendid sample of belted singing. After the interval, Mr. Billington sang, by request, the "Scotch" song, "The Lassie," which was a most welcome addition to the local musical friends; every sentence, every word, received its proper attention, resulting in a splendid sample of belted singing.

Although new to Rothwell, Mrs. Mabel Halliday is not by any means new to Leeds audiences, having frequently occupied the stage during her career, and her selection of songs, of which the Leeds papers have spoken in flattering terms. Mrs. Halliday is, without doubt, highly gifted, of good presence, a remarkably clear enunciation, and a full and free voice, and her selection of songs, of which the Leeds papers have spoken in flattering terms. ROTHWELL INDEPENDENT LABOUR PARTY.
The announcement by the above body that Mr. J. B. Glasier, of the National Administrative Council of the I.L.P., was to lecture in the Mechanics' Hall, on Monday night last, on "The Empire, its position and peril," excited the attention of the ratepayers that the meeting was to be one of a pro-Bour character, and condemnation of the Government's South African policy. That this was so, is borne out by the publication on Monday morning of a handbill, calling on loyal Roddicks to rally round the Union Jack, and to attend the meeting. The services of the Rothwell Old Band were also engaged, who played "The Queen" and other patriotic and national music in the streets as well as in the vicinity of the meeting place just before the lecture was announced to commence. It was rumoured in the town during the early part of the evening that the Mechanics' Committee had decided not to allow the meeting to be held, but this was found to be a groundless rumour, as large crowds flocked into the hall shortly before seven o'clock, the room soon being filled with an excited and expectant audience. The time up to the lecturer and chairman taking their positions on the platform, was marked by ebullitions of popular national and military strains, indicative of strong opposition and likely physical disturbance, should anything disrespectful be said of those conducting or engaged in the war or of the policy of the Government in its present manipulation of the South African crisis. Mr. W. Lunn, on rising, appealed to the audience as a body of Englishmen and women for a fair hearing; they had engaged the room, and were prepared to pay for it, and that being so, he thought that although all might not agree with the sentiments expressed, they might at any rate give the lecturer a chance to express his opinion, and deal with the subject from his point of view. There would be a discussion at the close of the lecture, he said, for questions and discussion, so that any one desirous of speaking would have a fair chance.

Mr. Glasier then commenced his lecture on "The Empire, its position and peril." Its area, population, resources, conditions of labour, peril on account of foreign competition, lack of raw material in the home country, etc., were spoken of in a reasonable and, perhaps, too pessimistic fashion; the political aspect of the question, about which the title of the lecture led one to suppose would be sure to be touched upon, was left severely alone; the foreign policy of the present Government, especially regarding the Boer war, was not touched at all, the audience evidently expected a great deal, but was disappointed. A question at the close did draw forth the statement that he was in favour of the present war being stopped at the very first favourable opportunity, and that he was in favour of peace.

EDITOR'S LETTER BOX

| We are not responsible for the opinions of our correspondents.

Alluding further to the subject of the Dramatic Society—in connection with the project to give a performance in aid of the local war fund—discussed in the Letter Box last Friday, I am told it is definitely arranged the event shall come off as originally planned in May. That is as it should be, now even

body will be satisfied, and none more so than those gay-hearted members of the Dramatic Society. The public will rise to the occasion, the war is in everyone's mind and the consequences of it will need all the sympathy and assistance the public can afford. The performance of the play entitled "Heroes" which will be given by the Rothwell Amateur Dramatic Society on Wednesday

Drum and Bugle Society, on Wednesday, the 1st day of May, in the large hall of the Mechanics' Institute, Rothwell, will afford a most pleasant and simple in our midst an opportunity to enjoy a pleasant evening and at the same time contribute a trifle to the fund for the aid of families of our soldiers at the front. I trust you, gentle reader, will meet many of your friends at the Institute on the occasion.

Whilst writing on amusements let me forget that our newly-formed Choral Society will make their bow to the public on Tuesday evening next. I hear the reserved tickets have been well taken and I trust the hall will be quite crowded in every part.

It may interest the readers of the *Labour* box to learn that the poor rate for the coming half-year will be the same as the last, namely, one shilling and sixpence in the pound.

Really 1s. 6d. does not cover the estimate of £146 or nearly one penny in the £. A penny in the £ produces about £160) but set against that, the overseers have in the £145,000,000, I learn the £

ROTHWELL SCHOOL BOARD MEETING.

A monthly meeting of the above School Board was held on Friday night last, in what by courtesy is called the "Board room" at Carlton Lane, Mr. A. Batty (chairman) presiding. The other members in attendance were—Mr. Butterick, Mr. Lunn, Mr. Alderson, Mr. Richardson, Mr. Park, Mr. Elstob, with the clerk (Mr. Marshall) and attendance officer (Mr. Denton).

MR. NICHOLSON'S SALARY.
 Mr. Nicholson, the head master, at the Stourton school, wrote, pointing out that a month or two ago he applied for an advance salary. He had under his care the largest school in the district, with a roll of over 400 children, and he only received £5 more than he did 20 years ago; he now asked for an advance of £10.

Mr. Park: What was done when Mr. Nicholson applied before.
 A Member: It was ordered to lie on the table.

Mr. Park: But he has had his gas allowed since, I think.
 Mr. Elstob proposed that the next business be taken and Mr. Park seconded.

Mr. Alderson: But it is a courteous application, and we should deal with it at once.
 After further conversation, Mr. Alderson proposed that the Board's expenditure was going up by leaps and bounds, and he did not see their way clear to increase his salary at present.

Mr. Butterick: I think that is not a proper resolution. It is admitting something, if it is passed. We are all in the know about the state of our finances. A sensible resolution has been proposed, and I am prepared to support it.

Mr. Alderson withdrew his former resolution, and moved that the Board did not see its way clear to increase his salary at present.

Mr. Richardson seconded.
 Mr. Alderson's resolution was finally carried with the deletion of the words "at present."

THE ESTIMATE.
 SERIOUS INCREASE IN EXPENDITURE.
 The Rev. J. A. Alderson, chairman of the Finance Committee, presented his half-yearly budget, from the figures of which it will be seen that the School Board's expenditure for the district is assuming formidable dimensions.

Prospective Income—
 Balance in hand March 31, 1900 213 15 0
 Fee Grants at 10s. per child 318 0 0
 Evening Classes " 50 0 0
 Agricultural Rating Fund " 22 11 0
 Income from the School Grant 40 0 0
 Sales and Lettings " 28 0 0

Anticipated Expenditure—
 Officers salaries 40 0 0
 Administration expenses 55 0 0
 Salaries of Teachers (day) 934 0 0
 " (evening) 23 0 0
 Books, Stationery, Apparatus 90 0 0
 Fuel and Light " 19 0 0
 Repairs to Premises 65 0 0
 Cleaning, &c. 80 0 0
 Rent, Rates and Insurance 27 0 0
 Furniture 65 0 0
 Repayment of Loan 130 0 0
 Interest " 130 0 0
 Petty Cash " 12 0 0
 Deposits in Bank " 169 9 6

Less income as above 704 9 6
 Estimated deficiency 1205 0 0
 Provided for in last Budget 2300 11 0 0
 Added by Overseers 2300 11 0 0

Increased deficiency 2300 11 0 0
 This increased liability is accounted for as follows—

The reduced average attendance of children has affected the Fee Grants to the extent of 29 0 0.
 The Evening Schools have not been so successfully attended as anticipated, which has reduced the prospective grant by about 13 0 0.
 The new Plan for Stourton not included in estimate 25 0 0
 Repairs at Stourton not foreseen 26 0 0

Mr. Alderson then proposed that the receipts be served on the Overseers (or Rothwell, £1100; Thorpe Stapleton, £12; total £1112). They would, he said, have to tide over the deficiency as best they could; there was the glass rose to be erected at a cost of £24, not reckoned for in the estimate, and if the Board was going to keep anything like the bounds, it would have to be very careful indeed, and see that no further money was spent than was absolutely necessary, otherwise he didn't know where they would land. This note of warning he trusted would not be lost.

The Chairman seconded the resolution, remarking that although the Overseers had provided an additional £200 that was not sufficient to meet the deficiencies.

Mr. Lunn remarked on the bad state to which the staff was just before he was elected a member of the Board, the additional number of children now coming to the schools, and the necessary increased expenditure for the maintenance of the staff. He looked upon money spent on education as the best spent money in the country, and if they intended to keep abreast of other nations they must necessarily increase the expenditure, the benefit of which would be reaped by the young and rising generations whose educational interests they were placed upon to be safeguarded.

The motion carrying of the estimate and calls was then carried.

FEDERATION OF SCHOOL BOARDS.
 The Clerk and Mr. Lunn reported on their attendance at the meeting of the Federation of School Boards, at which there were 170 members present from 80 Boards. Their efforts to get country Boards represented were successful. Mr. Lunn of Rothwell, and Mr. R. J. Smith, of Woodlesford, being elected. Resolutions were passed dealing with the

new code in reference to the block grant, and the reduction of the Pupil Teacher's grant from £12 to £6.

The deputation was thanked for their report.
THIS MIGRATION OF CHILDREN FROM ONE SCHOOL TO ANOTHER.

On the question of children going from one school to another (Board to Church and Church to Board) being introduced, it was suggested that it be taken in Committee.

Mr. Lunn strongly objected, as he contended it was one of the most important questions that had engaged the attention of the Board for some time.

On the motion of Mr. Lunn and Mr. Richardson it was decided to take the matter as public business.

A question which will be remembered was a short time ago a meeting of the Board and Church School managers took place when this subject was discussed.

The Church managers now proposed that the following motions should be passed by each authority—

1. That the Head Teachers be informed that no scholar can be admitted from another school into their school without the direct permission of the Managers.

2. That before giving this permission the managers enquire of the authorities of the school from which the child wishes to migrate, whether the parents have given to those authorities a satisfactory reason for such a transfer; and if they shall refuse to admit the child into their school until such satisfactory reason for migration has been accepted by the authorities of the other school, from the parents or guardians of the child.

3. That the summer holidays each year be for three weeks, of which Bank Holiday week be the middle one; and if any cause of emergency should arise, such as a fire, due notice be given to the managers of the other elementary schools in the town, at least a month before the date of the commencement of the holiday.

Mr. Butterick, dealing with the first suggested regulation, said this condition he hardly agreed with; without the sanction of the managers it seemed to him a great alteration. To his mind the head teachers were the most likely to admit scholars. If they were going to have a meeting of the management every time a child wanted to enter the schools, it was going to entail a great deal of trouble.

Mr. Richardson said he had a minute on the board to the effect that the head master exercise his power as to admitting children, and if that is so then the resolution would have to be rescinded before we could adopt the suggested rule. Parents' decision as to which school their children should attend would evidently be of no avail whatever.

Mr. Elstob reminded Mr. Butterick that the Code specified that the question of admission of scholars should be in the hands of the managers; as to the waste of time, it would not be necessary for the managers to be called together every time a child sought admission; they could be allowed to attend school until their case could be brought before the managers.

Mr. Lunn proposed that the regulations lie on the table, as he was entirely opposed to them. If the resolution under discussion was just altered in the last word and made to read "master" instead of "managers," it would practically be the same resolution as they had at present on the books. He would like to ask what was to be done in the case of parents who did not think their child should take away his child from a certain school, and send it to another, he had a perfect right to do so. The question he had asked before, as to whether there were any cases of children leaving the Board or Church Schools and going back again, had never been answered. He found on looking at the minutes that the Finance Committee at Rothwell there was a serious falling off in the average attendance in consequence, no doubt, of the inconveniences experienced in temporary premises. No doubt this would be altered when they got settled in the new premises. The manoeuvre, he took it, was against the interests of the Board Schools; if the children partly could get the best of the situation through, they would have played a good game; he was opposed to the rule entirely.

Mr. Elstob, as representative of the voluntary school, took exception to the charges against their management, the personnel of which he did not think the church management's desires were honest, no one would oppose the proposals more than himself. Their desire was to strengthen discipline and benefit the average attendance.

Mr. Alderson said it appeared to be in the first place a question as to whether a grievance existed. He believed the Church managers were sincere as they should be; without exception, there being in the Board school three-quarters of an inch of accumulated dust on some of the upper fittings.

The estimate for the half-year was presented and approved, and precepts on the Overseers signed for £311, which runs to a 34d rate.

DULTON & WOODLESFORD
SCHOOL BOARD.

The Board acted on a recommendation of the Building Committee to pay the redemption money for the charges on a portion of the new Workhouse site.

On the motion of the Rev. M. J. Dillon, it was decided that the assistant cook take the place of cook, and that an assistant be advertised for. It was decided to oppose a bill for transferring the appointment of assessment committees from Boards of Guardians to Town Councils.

An invitation was received from the Blind Institution for four inmates to attend a concert and entertainment on Monday next. Orders were given that permission be given for such as are able to go.

WOMAN'S MESSAGE TO WOMEN

Several circular letters respecting the business at the coming meeting of the above Association were read and considered. It was reported by the Clerk that in consequence of the direct action of the Association the Government had issued a minute modification of the new code regulations, under which School Boards could establish either elementary schools, in their present school buildings, but under a separate and distinct teaching staff.

The Clerk reported that the right of way question so far as the Board was concerned was now permanently settled.

have to exist and require their impetus just the same on light rights as dark ones, and so these first five are very difficult to earn an honest penny after the fighting season is over. Here is a splendid opportunity for the new Chairman of the Lighthouse Committee to shine, and I hope he will not make the Committee blush. Surely the Committee will not prefer to "dwell in darkness" on so humane a subject.

At the beginning of the second lesson, he approaches the person with the whip in his hand and a bunch with goat skins tied to the end of it. He says, "This is the wave offering, in the ale, and it holds the whip so that the pious hands direct over the priest's head, until the completion of the chapter, when the priest is to take the whip and reverently place it on the ground. The Volume might be written about these goat skins, the origin of most of them being lost in antiquity."

MESSRS. J. & J. CHARLESWORTH'S

CONTRACTING-OUT SCHEME

The workpeople in connection with the

Rothwell Hall collieries, assembled in the

Mechanics' Hall on Monday evening last

in question as to the destination of the annual

trip. Mr. James Hargreaves, the manager

provided; he stated that they had been un-

able to get the balance sheet complete for

that meeting, but as far as they could ascertain,

the particulars of the Management

Fund was as follows: Income £250,

expenditure £262 14s 1d, leaving a balance

of £87 6s 1d for disposal. There was a

certain amount overdrawn from last year's

trip, but the difference had been recouped by

commission from the Railway Companies.

Out of £8 8d the sum which they had each

contributed, there would be 3s 3d per head

available, which amount must either be used

for an excursion or handed back to the

revenue account. The manager suggested for

the excursion were Southport, Scarborough,

Liverpool, Barrow, and Bridlington, and after

a contest between Southport and Liverpool,

the former place received the largest support.

There was a general stampede before the

election of officers took place, and the appoint-

ments made were as follows:—President,

Mr. Jock Charlesworth; board of manage-

ment, Messrs. E. Bamford, J. Cooper, E.

Ward, J. Harrison, J. Buckhouse; sick stew-

ards, Messrs. J. Robinson, J. Robinson, J.

Nunns, J. Woodhead and S. Loryman;

Robert Pit, Messrs. John Priestley and J. T.

Kilburn; Midland Pit, Messrs. Abel Baty

and J. Harrison; and one member.

Mr. J. Abbiash suggested the advisability

of arranging the annual trip a year

beforehand, and asked permission of the man-

agement to propose the trip and place for next

year at this meeting.

Mr. W. W. Harrison contended that a

notice of the question ought to have been

given, as it was an important question, and

if other members had known, they would not

have gone away.

The Chairman: The people who have gone

away should have stayed until the business

of the meeting was finished. If Mr. Abbi-

ash's suggestion is carried out, arrange-

ment could then be easily made, and the

present difficulties overcome. The question

is quite in order.

Mr. Harrison contended that it was a great

step to take, and if the suggestion was

carried, he would write a protest to

the Registrar.

Mr. Jock Harrison: It would look ridiculous

to choose a place for next year when the

main of the meeting have been carried out.

Mr. Elton suggested that when the people

who had left the meeting, found out that two

trips had been arranged instead of one, they

would be greatly surprised. There was still

over 100 members present, and the same

two trips would be arranged in dealing with the

question.

After further discussion in which other

members joined the Chairman said that

members leave the meeting as soon as the

trip business is carried out, and they would

be quite in order in settling the question

before the meeting. He would suggest, how-

ever, that the matter be left over until the

balance sheet was circulated, and then they

could call another meeting to submit the

balance sheet and decide this matter at the

same time; thus they would be able to facili-

tate the arrangements with the railway

companies by having the meeting in future a

year beforehand. The Asses and Liab-

ilities of the said firm, will be respectively taken and

borne by the said HERBERT ARMITAGE and

JOE HARGREAVES RAWLING, who will carry on

the said business on their own account, under the

style or firm of "ARMITAGE & RAWLING."

Poetry

UNDER THE WINDOW,

Soft the silver moonlight gleaming
Wraps the drowsy tent,
When my gentle love lies dreaming
By the summer sea;
Low and low wind of even
Past her lattice creep:
Angel eyes lean out of heaven—
What a wondrous melody!

Fairy dreams that launch her pillow,
Fold your wings from flight,
While the low song of the willow

Bend above her, pastoral slumbers,
Through the silent hours,
Weaving your melodious numbers
Sweet as breath of flowers.

All the beauty spring discloses
Wreathes about her sleep;
In the spice of summer roses
Her young fancies steep.

Fold your bright wings under, over
Her white soul; and the while
Whisper her impassioned lover
Lives but in her smile.

Fairy dreams that haunt her pillow

Through the happy night,
Till the foam-wreath on the pillow
Melted in morning light,
Murmur to her, low and lowly,
Some glad thought of me,
While the moonlight's still and holy,
Gilds the dewy less.

Your delicious names linking
With her lover's name,
Till her virgin bloom shrinking
Kindled with sweet shame;
Till the moonlight's ghostly glimmer
Faints on tower and tree;
And the waxy stars, dim and dimmer,
Fade beyond the sea.

Friday, August 24, 1900.

The Infirmary Demonstration of tomorrow, Sunday and Monday, gives promise of again being a big affair, and should attract the attention of the public.

The three days' programme has again been adopted, and in the main it is similar to last year's—cycle, and horse races on the Saturday—sacred concert on the Sunday—variety entertainment on the Monday, with a military display and fireworks in the evening. The boys of the training ship 'Indefatigable' whose playing and physical exercises were so highly appreciated a few years ago in connection with the Demonstration, have again been engaged, and will take part in the proceedings both Sunday and Monday. A special attraction on the Monday afternoon should be the renowned Astella, whose wire performances are spoken of as astounding and extremely venturesome, whilst to the lovers of feats on the high trapeze, the Brothers Carter should afford pleasurable entertainment. The grounds are to be beautifully illuminated, and the 'Relief of Ladysmith,' which commences at dusk, promises to be a realistic and novel in many of its particulars. The fireworks are of good brand, and the display by Professor Goff, of Stoke-on-Trent, will in itself be worth the admission money. It is almost superfluous to press the claims of the Infirmary, as it is being promoted by a few families in the district but who have directly or indirectly benefited at the hands of the skilled staff of physicians employed at the Leeds Infirmary, or by the tender nursing of those whose duty it is to minister to the wants of those unfortunate enough to find a place in the wards of the Infirmary, but fortunate enough in their time of need to be housed where everything that modern surgery and medical skill can accomplish is sure to be done on their behalf. The institution to a great extent depends upon voluntary support, which up to the present it has received to a very marked

degree, in expressing the hope that Rothwell will uphold its best traditions in this respect, let us remind our readers that the district has enjoyed striking immunity from serious catastrophes for a long time, and is a mining locality; then let us place our gifts into the hands of Charity with a thankful heart, in the hope that they may bring comfort, solace, and renewal of health and strength to those less fortunate than ourselves.

HUNSLAT BOARD OF GUARDIANS.

A fortnightly meeting of the above Board was held on Wednesday afternoon, at the Offices, Glasshouse Street, Hunslat, Dr. Hawkyard (chairman) presiding. The members present were:—Mr. R. R. Butler (vice-chairman), Messrs. Knight, Bobb, Butler, Banks, Charlesworth, Irvin, Edwards, Tomlinson, Seddon, Houghton, with the clerk (Mr. Meo), and assistant clerk (Mr. Ward).
At a meeting of this Committee held on the 15th inst., the Medical Officer's report book was submitted, in which was recommended that provision be made for 19 or 15 male infirm wards in the school buildings, to allow for extra admissions in the winter months, the Infirmary at present being full. Proposed by Mr. Seddon that the matter be put on record for consideration at next meeting; seconded by Mr. Bamforth, and carried unanimously.
There was no report from the Ladies Committee.

THE NURSES.
A letter had been received from the superintendent nurse, Miss Rockett, which expressed regret at seeing no possibility of resuming her duties. This matter, with the question of the release of the probationer nurse, Miss Bellhouse, were adjourned until the next meeting.

CHILDREN'S HOMES.—HOSPITAL ACCOMMODATION.
At a meeting of the Children's Homes Committee the question of transferring all the children from the present premises to the Children's Homes had been considered. Also a suggestion by the Local Government Board to appropriate the number 5 home for the treatment of minor infectious diseases. Tenders for new greenhouses for the Homes had been received from several firms, that of Mr. W. Green, of Garforth, (according to his own plans), being recommended to be accepted, the price being £119 7s 4d. The Local Government Board intimated their willingness to allow £200 towards the salary of the industrial trainer in gardening for the coming year. Gifts of flowers from the Church Sunday School children of Woodlawn were reported, and of magazines by Mr. W. Seddon.

Mr. Butler proposed the confirmation of the minutes, and remarked that after an interview with Dr. Fuller, of the Local Government Board, respecting the isolation of infectious cases of sickness, the Committee engaged an architect to arrange a plan for the alteration of the No. 5 home for isolation purposes, but although two schemes were submitted by Mr. Richardson, neither recommended themselves favourably to the Committee, the matter being of opinion that rather than alter the existing home, provision for infectious cases should be made in a separate building. Dr. Fuller thought, however, that satisfactory provision could be made out of the No. 5 home, and he would have been left open for the Board to decide, as also on the question as to whether the children from one to three years of age should not be taken to the Homes. Personally, he thought it would be a great mistake to take the No. 5 home to a hospital or infirmary. The district was growing, and in the near future, although the home at present in question was unused, it would eventually be required to fulfil the purposes for which it was built. It would be a scandalous shame to begin dividing the home up, which had cost £2,000, and if extra provision had to be made over and above that set apart and approved by the Local Government Board, it was the original Local Government Board who were to blame. He would favour the erection of a separate building. The Committee were in a dilemma, and came to no definite decision on the matter.

The Chairman: Why do you want the children from one to three years?

Mr. Butler: So as to utilise the number 5 home.

The Clerk pointed out that there was conflicting opinion on the matter by the Local Government Board, and that it was what was required by the central authority, it had been suggested that an interview with the Local Government Board's officials be sought before taking any definite steps. That it could be ascertained how far the Committee could be allowed to go.

Mr. Robb expressed himself strongly against having the No. 5 home interfered with. It had already cost a considerable sum of money, and it would cost a lot more to convert it into an hospital. Special cases of infection could be taken to Leeds, besides which Rothwell were about to make special provisions in that direction.

The Chairman: This question is not one of minor infectious diseases, but of minor diseases; Rothwell would not remove measles in the home, and some provision should be made for isolating measles, chicken pox, and so on. What are you going to do with these cases?

Mr. Robb: Build a separate place.

The Clerk: The Local Government Board don't seem to think the room for for the isolation of measles is sufficient, and consequently the No. 5 home must be used.

The Chairman said that evidently this question had been overlooked by the Local Government Board when the original scheme was approved. Some were evidently of the opinion that the No. 5 home would make provision for a village of four or five thousand, and would be far more than was required by the Board. The most likely thing to do, I thought, was to put up a separate building to accommodate any three or four cases.

Mr. Irvin: And the Local Government Board would not object.

The Chairman: I don't think they will. The Clerk: They objected to an extra

building in one of their letters.

On the motion of Mr. Butler and Mr. Robb, it was agreed that the children from the Workhouse from one to three years of age be transferred to the new building.

It was then decided that a deputation wait upon the Local Government Board, to make the best arrangements they could, with a view to the erection of a separate building for infectious cases of sickness, measles, chicken pox, and so on.

The deputation selected consisted of Dr. Hawkyard (chairman), the Clerk, architect (Mr. Richardson) and Mr. Butler (chairman of the Homes Committee).

VACCINATION.
The Vaccination reports had been received. Legal proceedings had been taken in five cases. Mr. Denton notified his intention of taking legal proceedings against E. Fozzard, of Commercial Street, Rothwell, for non-compliance.

A 'GENERAL' WANTED.
The Clerk reported that although advertisements had been inserted in four papers, no application had been received for the post of general servant at the Workhouse.

Mr. Knight: There are no general servants in the country; you must advertise for a kitchen or house maid.

The Chairman: No, there are evidently no such things as general servants.

ALDERMAN COOK'S TREASURY.
The Chairman said that the inmates had again participated in Alderman Cook's treat at Westwood, and had thoroughly enjoyed his generous provision of good things and entertainment. He was sure the Guardians thoroughly appreciated such kindness, and had pleasure in proposing that the Board's thanks be conveyed to Alderman and Mrs. Cook for their generous treatment.

Seconded by Mr. Banks, and carried unanimously.

EXPENSIVE FURNITURE.
A letter was read from the Local Government Board, drawing attention to the cost of 18 new chairs that had been purchased for the new offices, to correspond with the old ones, the cost £3 6d each being thought to be excessive.

The Clerk pointed out that if 30 new chairs had been bought, it would have been more expensive; the new chairs had been made so as to match the old ones, and cost less than the old ones purchased 30 years ago.

Mr. Knight: If we are overcharged, then we can take them home.

The Chairman: I shall take mine.

The Clerk said he thought the Local Government Board would see their way clear to grant payment when the circumstances were explained.

MISCELLANEOUS.
The Master reported that during the past fortnight, 146 vagrants had been relieved against 187 during the corresponding period last year.

The application by Mrs. Katkin for pension for the members of the Stourton Wesleyan Sewing Meeting to go through the Homes, was granted on the motion of Messrs. Butler and Edwards.

Accounts amounting to £280 9s 2d were passed for payment.

A Committee consisting of Messrs. the Chairman, Banks, Butler, Dutton, Fryer and Robb, were appointed to consider an important circular letter from the Local Government Board on the question of the aged deserving poor.

A circular from the Poor Law Union Association, asking that they should give attention to other things, to recent proposed legislation, which included provision for Irish people qualifying for relief in a Union's area after six months residence, whereas any other person had to be a resident twelve months.

Mr. Knight: Another injustice to Ireland. The Local Government Board offered no objection to the appointment of E. G. Seale, as charge nurse.

'OUR SOLDIER LADS'

PRIVATE C. BLACKBURN writes a letter to Mr. William Smith, from Standish, dated July 21st:—I hope you are all well. You must not get the war is over yet, because our Generals let the Boers have too much of their own way. If they had been more strict with them I think the war would have been over.

It is terrible to think that they are just beginning to be humble to it. I see that Lord Roberts is sending to all the Boer women and children into the Boer lines and if he does I think the war will not last long, but if we do not send their wives to them the war will not end for many months. I think the war is out here; we have not time to do anything. I have had my straps and boots on eight days now. We get about one day in ten of the Boers, and I think the Boers are not far off from an attack on us, but I think they will not come so near to us. I was on outpost duty on the 19th of July and when I was walking my beat, I saw someone in front of me, I shouted 'Hallo!' and he ran away, but he was too far away. I thought to myself I wish I had let them get a bit nearer me. My mate said let them get a bit nearer me. I think the Boers are not far off from an attack on us, but I think they will not come so near to us. ROTHWELL DISTRICT COUNCIL.

A monthly meeting of the above Council, was held on Wednesday evening last, in the Council Chamber, Councilor Walter Hargreaves, J.P. presiding. The other members present were—Councillors B. Taylor (vice-chairman), J. Stead, H. Nichols, G. Arncliffe, J. Oliver, J. Abbishaw, J. Arncliffe, S. Dobson, K. S. Turnbull, A. W. Seaton, J. W. Bulmer with the clerk (Mr. W. D. Jones), medical officer (Dr. Stevenson), surveyor (Mr. J. T. Peers), and the newly-appointed nuisance inspector (Mr. Moorhouse).

Highways Committee.

At a meeting of the above committee held on the 9th inst., a letter was read from the tenant of the Black Bull Hotel, Rothwell, asking that the causeway in front of his house, might be taken up, and set out into the whole length of the frontage. The owners, Messrs. Tetley and Sons, were prepared to pay half cost if this was done. The Committee were of the unanimous opinion that the Council would be justified in not bearing any part of the cost of such an alteration.

It was agreed that two gullies be put down near the Angel Inn, on condition that certain paving be carried out by the owners. The Committee decided to notice the owners of the property abutting on the roads from the top of Meynell Avenue, up to Mrs. Clayton's house at Church Field, to put the roads concerned into proper repair.

The Surveyor reported that the paving in Bell Hill would be completed in a few days. Orders were given for prices of snow ploughs to be obtained; for 50 wagonette badges to be obtained, and estimate for shelter to be got out. It was decided that 2s. 6d. each and cost of license be charged to wagonette proprietors. The Clerk was instructed to see if arrangements could not be made with the Leeds Corporation for the removal of the refuse from the streets within the Council's area at Stourton, without the Council's sanction being first obtained. The Committee had considered the question of the workmen's wages, and recommended that a uniform advance be made to the workmen, viz. 3s. 6d. for labourers £1 1s, and foremen £1 5s. Arrangements had been made with the Railway Co. to have the bridge over the Wakefield road concreted so as to make it dry.

Mr. B. Taylor proposed the confirmation of the minutes. In considering the question of the workmen's wages, he said, the Committee thought it advisable to give an all round advance, instead of an advance to one man here and another there.

Mr. J. Abbishaw seconded the motion.

The Chairman: How many men does the advance affect?

Mr. Oliver: About twenty; the men under the Highway Committee.

Mr. Stead thought the proposed alteration opposite the Black Bull would be a good one and asked if the cost had been ascertained.

Mr. Taylor: It had been ascertained.

Mr. Oliver: That being interested in the licensing of wagonettes, he felt that the Committee had been rather too severe in the price to be charged for the licenses and badges. He thought the Committee were being made to make something out of the air, whereas only sufficient should be charged to cover actual cost. It was already a severe struggle for a livelihood with the proprietors, and he thought that the charge should be something less than 3s. 6d. necessary. He was pleased to hear of the advance to workmen, but thought the Committee had hardly gone far enough.

Mr. Taylor said the charge of 2s. 6d. had been taken from a suggestion made by one of the proprietors themselves, where the Committee met them to discuss the matter. The Committee certainly did not wish to make anything out of it. With regard to the shelter, he expected if they got one at each place they would also want one at Carlton, Lofthouse and Stourton.

Mr. J. Oliver: The Committee have no intention of making anything out of the wagonette proprietors. The figure was suggested by the proprietors themselves, and if it is less, I don't think it will cover cost.

Mr. G. Arncliffe: The profit, I think, will be on the other side.

Mr. Seaton: I should like to thank the Highway Committee for considering Oulton Field. I hope their efforts will bear fruit.

The minutes were then confirmed.

SANITARY COMMITTEE.

At a meeting of the Sanitary Committee, the Surveyor was instructed to divert the drain at Guller Bridge, so as to relieve pressure on the man hole on the side of the back.

The Clerk reported having inspected the Lofthouse sewage works, and had to complain of the trade refuse sent down by the Woodlesford Brewery Co. It was decided that the Clerk ascertain how similar refuse was dealt with by other Brewery Companies.

The consideration of the application of Mr. Wilkinson, for an increase of wages was deferred for six months.

A letter from the Wakefield Council was read stating that the Guardians refused to take any infectious cases into their Workhouse.

Mr. Abbishaw proposed and Mr. Nichols seconded the confirmation of the minutes.

Mr. Taylor: I understand some complaints are being about respecting overflowing ashpits.

Mr. Seaton said complaint had been made to him of one in particular, and that was one connected with the Co-operative Stores at Rothwell, which it was said had not been emptied for three months.

Mr. Abbishaw: The Committee have heard nothing of these complaints, and it would be really better if complaints were made to the Inspector.

Mr. Nichols: I have had innumerable complaints from Stourton about the same thing.

Mr. Bulmer asked the Chairman of the Sanitary Committee if his attention had been drawn to a closet in Rothwell that was used by seventeen or eighteen persons.

Mr. Abbishaw said it had not, but it would be as well if these complaints were made to the Inspector, so that they could be attended to; if members had to see the Inspector when complaint was made, he would be able to deal with them.

Mr. Bulmer said it was all very well to talk in such a manner, addressing the new Inspector, he said that he would very likely find that those who gave such advice would be the very persons to retard his progress.

Mr. G. Arncliffe: Such remarks are not covered by Mr. Chairman, and I don't think such insinuations at all fair.

Mr. Bulmer: Where the cap fits you can put it on.

Mr. J. Arncliffe: It doesn't fit me, and I think you should make some explanation.

Mr. Abbishaw: Such a remark, I think, should be explained, or withdrawn, as far as I know the Committee have done their best to keep these nuisances down. The Committee can not see all, and I hope the new

Inspector will try and do his duty. Some people seem to think that various duties are Inspectors, and complain to them instead of to the proper official. Such a remark as Mr. Bulmer's is very unbecoming, and if it cannot be explained, it ought by all means to be withdrawn.

Mr. Bulmer: It is cutting.

Mr. Abbishaw: It does not cut me.

The Chairman: I think Mr. Bulmer should give a reply, and he has done so by his remark; if I may say so, I can say that since I have been on the Sanitary Committee, I have exercised my influence to forward sanitation rather than retard it.

Mr. Bulmer: Then your conscience is clear.

The Chairman: I think you should withdraw the statement if you are not prepared to bring specific proof.

Mr. Bulmer: I shall not withdraw what I have said.

The Chairman: Then if you will not bring forward proof I shall have to take it that you have no grounds for making the statement.

HEALTHY RATES.

Dr. Stevenson in submitting his monthly report, said the returns from Ardsley were incomplete, but so far as they had been made the figures were as follows: 44 births (23 male and 21 female), Rothwell contributing 17 (11 male and 6 female), and Lofthouse and Carlton 27 (11 male and 16 female); there had been 17 deaths, 10 in Rothwell and 7 in Lofthouse and Carlton. During the month of September there had been 3 cases of infectious diseases notified, 1 case of typhoid fever at Stourton, and 2 cases of scarlet fever at Rothwell and another at Lofthouse.

FINANCE.

The Finance Committee report their last meeting had ordered the issue of the necessary notices of the Council's intention to lay a 1s 6d rate for the half-year ending March 1901.

Mr. A. Marshall reported the receipt on rates account of £2996, and Mr. B. Marshall £293 2s 4d.

Mr. Oliver proposed the confirmation of the minutes; the Committee thought that on the estimate made for the year the Council would be able to manage with 1s 6d rate, providing the Council kept within their estimate, and finish up the year with a satisfactory balance. (Hear, hear.)

WATERWORKS.

At a meeting of the Waterworks Committee, a report of the water for the past month, was reported as follows:—148,000 for Rothwell, against 150,000 during the same period last year; 78,000 against 77,000, and Stourton 22,000 against 22,000.

LAMPS AND GAS.

The Lamps and Gas Committee had decided that as £20 was spent yearly in breakage and damage done to the lamps, bills be circulated in the district, asking for a contribution of 2s. 6d. each, to be used for the purpose of a successful prosecution of offenders. A discussion took place on a suggestion to place public lamps in Cross Street and Clayton's Yard, Rothwell, but no definite action was taken.

A communication was also received from the Rural District Council was considered, asking for Woodlesford Lane and Holmesley to be lighted, so as to complete the lighting between the two places; this the Committee could not see their way to do at present.

The Clerk was instructed to enquire as to whether in similar districts to Rothwell, electric lighting and power plant have been worked at a profit.

Mr. Stead called attention to the need of more lamps in the West Fields district. He had had this matter mentioned to him, but had expected the member for Carlton bringing it forward. Lamps in this locality would be a great convenience to residents.

Mr. J. Arncliffe: You might have mentioned Royds Lane, which is in the South Ward.

Mr. Taylor: If you are going to consider the working men, you will want the lamps lighting up in the early morning; if you are going to light these lanes up there will also be Woodlesford Lane, Dungen Lane and several others.

Mr. Seaton said they had only just been asked by the Chairman of the Finance Committee not to exceed their estimates, and if these districts were lighted up their estimates would be doubled. He thought they should keep on the right side.

The Chairman: What so far as could be done, the erection of new lamps had been decided into the respective wards, and as a member for Carlton, he thought Carlton had had its share, in comparison with other wards. The minutes of the Committee were confirmed.

THE BUILDING COMMITTEE.

The Building Committee approved of the plans for a house in Royds Lane, by Mr. Walter S. Conley, subject to advice being given by the Council, and also those of the English Metallurgical Co. for new works at High Park; by Messrs. Pawson Bros., for cottages at Robin Hood, subject to alteration of boundary wall. Plans by Mr. W. Lech for a new property at Churchfield were referred back.

Mr. W. Hargreaves reported his interview with the Chairman of the Hunsllet Board of Guardians, re the Workhouse plans.

The Committee's minutes were confirmed, and after a congratulatory message it was decided in regard to the Workhouse plans, that the suggestion of the Guardians, to deposit for inspection the plans in one of the buildings on the Workhouse site, be accepted, subject to the plans being in the place named within two months time.

EAST AND WEST YORKSHIRES UNION RAILWAY.

The official traffic return for the above railway for the week ending Oct. 6th, 1900, is £284; the amount during the corresponding week last year was £280, thus showing an increase of £4.

For 14 weeks ending Oct. 6th, the return is £2601, against £2378 for the corresponding period last year, an increase

AUTUMN NEEDLEWORK. This is a large and useful family where there is no plentiful supply of money, should be directed to improve the winter bedding. Thin places in blankets, damaged by the summer sun, should be mended. The children's coats, etc., etc. To this list I should like to suggest that quilts be made out of pieces when the children are cast aside for years. Remnants of bright flannels, bits of cloth, serge, etc., can all be utilized, and if your supply is small, you can buy a few scraps of cloth to make the quilt. It gives a good strong piece of calico and join it together firmly till it is made into a quilt. The quilt can be made in any pattern, and the scraps of calico in some kind of pattern. Secure every piece in place at first with pins, and then with sewing. Sew the quilt in the center. Leave each edge over, and join the next to the distance of a quarter of an inch, and when all the edges are joined, turn off the corners. The quilt is now ready to use. The quilt case is one of the most serviceable articles that can be made, and it can be made in any color. When the whole calico is covered, bind the quilt with coloured braid, and you will have a beautiful and warm quilt.

THE STRANGE RUDE SPOTS.

"On a cold wet day in December, seven years ago, I went to my sister's funeral—a and ended my thinking in itself—and one thing I remember very clearly. I will speak of it simply and briefly as it can."

"Through standing about in the cold and wet took a chill which led into a violent attack of rheumatism. The cold got better but left me several rheumatic pains in my hands and arms. The way these pains came on was peculiar. They were like a cold, but they were not in the head and legs began to swell and got very hot. I then the spots appeared all over the swollen parts of my body. The spots were at first; in the afternoon, just between three and four o'clock, and changed colour in the same order. At such times I felt not very warm, but when the spots were all over my body, I was always very warm. The spots always went away during the night, and in the morning I could get up as usual. Then again, I would have a cold in the afternoon that was my state for two weeks."

"The doctor said I was suffering from kidney trouble, and I was to be kept in bed for a week altogether. After being in bed two weeks the doctor sent me to the Dorchester Hospital, where I remained seven weeks, and came out as follows:

"So long as I stayed in bed there was no pain, but as soon as I got up I was in pain. When they returned, and I had to go back to bed another fortnight I was able to be up a couple of days, but then I was in bed again."

"At the end of seven weeks I came home then, in addition to the spots and the swellings I had, I had a shooting pain in my back, especially when I drew a long breath. At I screamed with the pain."

"The doctor was taking the dose of medicine and growing daily weaker and worse. I could not move, and therefore remained in bed for another fortnight. At the end of that time I was like me. Should I ever get out into the world again? None could say."

"One day I was told that the doctor was at the close of recovery."

"Madam, said the doctor, 'if I could give your daughter a dose of the night hawthorn, she would be cured. But I cannot do that."

"On this my friends sent for my father, who died. As the doctor had given up sending medicine my grandfather, Mr. Edmund H. Smith, who had used the Stryper, and who had been told to try that famous medicine, my case.

"My mother died in a day or two, and I was better, and in a week I was able to come to the store. The swelling and the spots were gone, and so were the pains. I had no more bottles were exhausted. The Stryper was a great gain. The pain was easy, regular, and natural, and I felt as well as ever I did in my life. Since then (seven years) I have used the Stryper, and I feel as well as ever. I have been a Harbottle Kate W. Woodford, 1001 Third St., Louisville, Ky., Jan. 1, 1900.

The above statement is witnessed, at Louisville, Ky., this 1st day of January, 1900, by the undersigned, who are fully qualified to testify to the facts set forth in it.

Wm. H. Trevett, of West St.
Mrs. Wellman, of Woodford, and others.

The disease which afflicted her was the same as that which afflicted her doctors, is

to medical science as *preparans hermaphroditi*. In plain English—purple spots on the skin, tingling in size from a pin head to a large palm, tingling in size from the blood caused by scurvy fever, and it often attended, as instance, by acute rheumatism.

In the severe form in which *Vitis Vitis* (I autotized her marriage) *preparans* is not accompanied by bleeding at the mouth, nostrils, and into the brain itself. It has a strong family likeness to scurvy.

One fundamental cause is no doubt in nutrition due to inactive digestive organs the resulting imbalances.

One of the most recent cases of this condition has been again shown in a case of the kind which is—popularly called it is in cases where even expert treatment fails.

ROTHWELL TIMES.

On Saturday in Rothwell, Woodlesford,

Leeds, Hunslet, Stourton and Methley

Friday, November 2, 1900.

HUNSLET BOARD OF GUARDIANS.

The fortnightly meeting of the above

Board was held at the offices, Glasshouse

Street, Hunslet, on Wednesday afternoon,

Dr. Hawkey presiding. The other mem-

bers present were Mr. Fyfe (vice-chairman),

Mr. Dickenson, Mr. A. J. Irwin, Messrs.

Knigh, Tomlinson, Butcher, Banks, Bam-

forth, Robb, Charlesworth, Seddon, Hough-

ton and Edwards, with the clerk (Mr. Moo-

house).

On the minutes of the previous meet-

ing, Mr. Knigh said he understood that

the eleven year books ordered to be supplied

to the District Council, had been withheld.

The Chairman: Is that so?

Mr. Knigh: They have been sent once,

and are now in the office and can be had on

application.

Mr. Knigh: I should like to know what

the Clerk means: have they been sent since

the Clerk's No.

Mr. Knigh: The resolution stated that

they should be sent, I think; it appears that

they have not been sent, and I am without

one.

The Chairman: I will take it upon myself

to see to it.

Mr. Knigh: Thank you sir.

The Master's report book showed that a

very enjoyable tea and entertainment had

been given by Mr. Seddon and his friends.

The number of vagrants relieved during

the past fortnight was 233, the number for

the corresponding period last year being 188.

At a meeting of the Workhouse Visiting

Committee, the minutes of which were con-

firmed, the report of the Finance Committee

was read and found satisfactory.

CHILDREN'S HOMES.

At a meeting of the above Committee, a

letter received from the Local Government

Board's Inspector was read, suggesting that

in connection with the proposed alteration of

No 5 home, he and Dr. Fuller would wait

upon the Committee that week. It was

resolved that in the opinion of the Commit-

tee no satisfactory arrangement could be

come to unless the architect was present;

they would be obliged to the Board if they

would attend to their previous decision and

receive a deputation on the matter.

A letter was read from Mr. Moorhouse,

sanitary inspector, of Rothwell, forwarding

his report on the drainage at the

homes. If the Guardians would pay cost of

water, the Rothwell Council would be pre-

pared to flush away the drains. It was

A METHLEY MINER'S GRATITUDE TO CHARLES FORDE'S

They alone Restored his Health which had been Ruined by Indigestion and Giddiness.

(EXTRACT FROM THE "Leeds Daily News".)

A representative of the Leeds Daily News has recently investigated the circumstances connected with a cure effected by Charles Forde's BILE BEANS, for BILIOUSNESS, which have proved not only highly interesting, but calculated to result in much good to sufferers if made known. The subject of that cure, Mr. Daniel Flockton, of Low Common, Methley, desired that the facts should be made known—not by any means for the personal glorification obtained by publicity, but purely because of the good which a knowledge of his case and the means of his cure should do to the great army of sufferers afflicted as he was. In the course of the interview with the press man Mr. Flockton told the following story, as he stood well and strong in his allotment garden:—"I am 64 years of age, and have worked in the pits for 50 years. In early life I was blessed with good health, and rarely missed a working day until about four years ago. I then began to suffer from shortness of breath, acute indigestion, and to have attacks of giddiness. Now these, to my harm, are dangerous, but to a miner they are particularly so. My strength began to fail, as I might, I could not work my shifts. Numerous friends who saw my condition advised me to go right off to Leeds and get the best medical advice possible. I am one of those men who don't believe in going to places where you can

was suggestive of Saville Row, and he was partial to patent leather boots, which in those days were only worn by dandies. After some time Mr. Cumming Madona migrated to England and became a rector in Chesham. But seventeen years ago he resolved to read for the Bar, so, giving up holy orders, he in due time became a barrister of the Middle Temple, where he still has chambers. The next incident in his life was standing for a constituency, and early in the present decade he entered the House of Commons. Stout and

**OULTON & WOODLESFORD
SCHOOL BOARD.**

The usual meeting of the above Board
took place at Woodlesford on Monday evening
last. The members present were,
Messrs. W. H. Newsome (vice-chairman),
T. Batt, J. T. Lygo, and Rev. A. J. Irvin,
and the clerk (Mr. R. J. Smith), and
attendance officer (Mr. Leslie).
The minutes of the last meeting were read
and adopted.

FINANCE.

The Clerk reported having received the
following amounts:—

Overseers on account of precept £ 50 0 0
Lettings 10 0 0
Sales 18 9 0

£68 9 0

ACCOUNTS.

Mr. Irvin proposed and Mr. Batt seconded,
that the following accounts be paid:—

School Cleaner £ 3 0 0
Assoc. School Board subscription .. 3 0 0
C. Seaton, coal leading 11 8 0
Reynolds & Branson, chemical .. 12 3 0
Teachers' salaries 69 15 0
R. J. Smith, salary 6 7 6
F. Leslie, salary 6 7 6

SALARIES.

The Clerk read a letter in reference to the
increase of salary from Mr. Cockroft, the
headmaster of the infant department.

Mr. Batt: Wouldn't it be possible to draw
up a scale of charges; it appears Rothwell
are carrying out something of the kind.
The teachers would then know beforehand
what they could expect.

Mr. Irvin: It would bind us too much.
Mr. Batt said it would have removed such
a case as Miss Cockroft's, which consequently
would not have been held over for a month.
He thought that the work of the head mis-
triss in the infant department was more
hard than a similar appointment in the
girls' department, and proposed that Miss
Cockroft be advanced to £90 from the last
of December.

The Chairman seconded.

Mr. Irvin supported, and spoke of the
teacher's high abilities. Mr. Lygo voted
against the resolution, which was carried.

DISTRIBUTION OF PRIZES.

The Clerk reported that he had received
from Mr. C. W. Carter and Mr. L. W. Carter
expressing their inability to be present at the
annual distribution of prizes.

Miss Cockroft and Miss Fawcett, wrote
to the Board in reference to the prizes and
the fact that owing to the large amount of sick-
ness which had prevailed, the average output
to be somewhat reduced, as there were only
a few who would qualify. They also re-
quested that the infants' and girls' prizes be
given in the form of a certificate.

Mr. Batt: Wouldn't it be better to engage
the Harold Hall.

Mr. Irvin: There are too many young
people who attend. It could be managed
by keeping everybody else out except the
children, and then they would not be
over-crowded.

It was eventually decided, that tickets be
issued to the parents.

Mr. Batt proposed and Mr. Irvin seconded,
that Mr. and Mrs. Fox be asked to dis-
tribute the prizes, failing them, the chair-
man and vice-chairman. This was agreed to.

Mr. Parkin, the head master of the boys'
department, called the attention of the Board
to the fact that Wm. Packergill be dis-
tinguished in the list of the 1892 without
missing a single occasion, at the close of the
present year, and recommended the Board to
give him a special prize, as at the completion
of the year, he intended leaving the school.

The Chairman proposed, and Mr. Irvin
seconded, that a special book of the value of
10s 6d be presented.

ATTENDANCE.

Mr. Batt proposed, that owing to the new
regulations of the Education Department,
the Clerk, said Mr. Cockroft should ac-
certain the attendance for the past five years of
the children of 13 years of age. They
would then be able to notify the children if
the necessary attendance had not been put
in the records of the school. Mr. Newsome
seconded, and the resolution was carried.

RESIGNATION OF MR. TRINDER.

The Clerk read a letter from Mr. Trinder,
which stated that as he was living far
away from Woodlesford, he had no option
but to send in his resignation as chairman of
the Board; he severed his connection with
the deepest regret.

Mr. Irvin proposed that the resignation be
accepted, and expressed his satisfaction with
the straightforward and impartial manner in
which Mr. Trinder had carried out the duties
of chairman.

Mr. Batt seconded, the resolution recording
the approval of all the members.

The Clerk said it was the duty of the
Board to fill the office of chair as soon as it
was possible; but the vacancy on the Board
could not be filled until a month after the
notice of resignation; then, by calling a
special meeting the Board had power if they
were wishful, to elect another person to fill
the vacancy.

The Chairman proposed and Mr. Irvin
seconded, that the next ordinary annual
meeting of the Board should be held on the
18th of December. Carried.

APPOINTMENT OF CHAIRMAN.

Mr. Lygo in a few words then proposed
Mr. Batt as Chairman of the Board.

Mr. Irvin said that the members of the
Board carried out agreeably; he was in
favour of Mr. Newsome being promoted
to the position, but in order to make the
resolution unanimous he would second the
Chairman.

Mr. Batt, in reply, said he would under-
stand to give every member of the Board an
impartial hearing, and if the resolution had
not been unanimous he certainly would not
have accepted the position.

MEMBERS OF THE BOARD.
The Clerk reported that he had sent a

letter to the Education Department asking
for an increase of the number of members,
and had received a reply granting the applica-
tion. At the next election there will be 7
members to elect instead of 5.

Mr. Irvin: It is a very great mistake;
the Board with the present members has
carried out the duties very well, and brought
the schools up to a high standard; every-
thing now will be done in the best way.
They had plenty of talking on the Board
without increasing the number.
Mr. Batt: That's all very well but I
remember the times when we were unable to
form a quorum.

ATTENDANCE OFFICER.

Mr. Irvin drew the attention of the Board
to a disagreeable quarrel which had occurred
between Mr. Leslie, the attendance officer,
and the parent of a boy and another person
while in the district. Mr. Leslie, in con-
nection with the school. It was a serious
matter, Leslie was sent out as his repre-
sentative and if he could not discharge his
duties in a proper manner they should get
out of the school. Mr. Leslie was asked to
give an account of his conduct to the
members of the Board. Mr. Batt seconded.

Mr. Leslie was called into the room and
the interview was taken in committee.

It was eventually decided that the services
of Leslie be dispensed with at once, espe-
cially after hearing his explanation as to his
conduct in reference to the boy, Whitehead,
and his unseemly display of temper.

Mr. Irvin proposed and Mr. Newsome
seconded that the Board advertise in the
local papers for another officer at a salary of
£15 per year.

**STOURTON ST. ANDREW'S MUTUAL
IMPROVEMENT SOCIETY.**

(COMMUNICATED).

On Monday evening a goodly number of
members assembled in the Board Schools to
hear a paper by Mr. L. Westerman (president
of the Society). The subject was "The
Future of the World." Mr. A. L. Parker who occupied the
chair, in a few preliminary remarks, stated
that Mr. Westerman was a practical man,
who would, he had no doubt, teach them
many valuable lessons for the evening,
for the subject chosen was one which, in im-
portance, ranked second to none.

Introducing his paper, the lecturer stated
that while the world has always had hopes
of peace as well as of war, the latter has
been more the rule than the exception, and
to their lot to be deprived of the
rewards and honours which are so plentifully
showered upon the latter; although it is
beyond dispute that the benefits accruing
to the world from the work of each, should
be decided balance on the "peace" side.

Too often have inventors been looked upon
and described as "poor half-witted fools,"
while the results of their discoveries have
been instrumental in raising to positions of
wealth and honour those who have been
neglected, and even to the point of
disgrace, ill-treated, and eventually left
to die in misery and want, while their dis-
coveries have been the means of producing
unlimited blessings for the world.

Mr. A. L. Parker in a more pathetic, than
which tells us of the ceaseless labours of
these men, sacrificing everything they pos-
sessed in order to work out their great pro-
fession; inspired by a true and constant faith
in that which they were endeavouring to
achieve, and then they would not be
over-crowded.

It was eventually decided, that tickets be
issued to the parents.

Mr. Batt proposed and Mr. Irvin seconded,
that Mr. and Mrs. Fox be asked to dis-
tribute the prizes, failing them, the chair-

for the subject chosen was one which, in im-
portance, ranked second to none.

Introducing his paper, the lecturer stated
that while the world has always had hopes
of peace as well as of war, the latter has
been more the rule than the exception, and
to their lot to be deprived of the
rewards and honours which are so plentifully
showered upon the latter; although it is
beyond dispute that the benefits accruing
to the world from the work of each, should
be decided balance on the "peace" side.

Too often have inventors been looked upon
and described as "poor half-witted fools,"
while the results of their discoveries have
been instrumental in raising to positions of
wealth and honour those who have been
neglected, and even to the point of
disgrace, ill-treated, and eventually left
to die in misery and want, while their dis-
coveries have been the means of producing
unlimited blessings for the world.

Mr. A. L. Parker in a more pathetic, than
which tells us of the ceaseless labours of
these men, sacrificing everything they pos-
sessed in order to work out their great pro-
fession; inspired by a true and constant faith
in that which they were endeavouring to
achieve, and then they would not be
over-crowded.

It was eventually decided, that tickets be
issued to the parents.

Mr. Batt proposed and Mr. Irvin seconded,
that Mr. and Mrs. Fox be asked to dis-
tribute the prizes, failing them, the chair-
man and vice-chairman. This was agreed to.

Mr. Parkin, the head master of the boys'
department, called the attention of the Board
to the fact that Wm. Packergill be dis-
tinguished in the list of the 1892 without
missing a single occasion, at the close of the
present year, and recommended the Board to
give him a special prize, as at the completion
of the year, he intended leaving the school.

The Chairman proposed, and Mr. Irvin
seconded, that a special book of the value of
10s 6d be presented.

ATTENDANCE.

Mr. Batt proposed, that owing to the new
regulations of the Education Department,
the Clerk, said Mr. Cockroft should ac-
certain the attendance for the past five years of
the children of 13 years of age. They
would then be able to notify the children if
the necessary attendance had not been put
in the records of the school. Mr. Newsome
seconded, and the resolution was carried.

ROTHWELL DISTRICT COUNCIL.

A monthly meeting of the above Council, was held on Wednesday evening last, in the Council Chamber, Councillor B. Taylor (vice-chairman) presiding. The other members present were:-Councillors A. W. Senior, J. W. Bulmer, J. Hargreaves, J. Abrahams, T. P. Whitely, H. Nichols, J. Armitage, S. Dobson, J. Stead, with the clerk (Mr. W. Dodgson), medical officer (Dr. H. Stevenson), surveyor (Mr. J. T. Peary), nuisance inspector (Mr. Moorhouse).

The minutes of the previous meeting were read and confirmed.

HIGHWAYS COMMITTEE BUSINESS.

A meeting of Highways Committee was held on the 4th of December, at which it was agreed to purchase a snow plough at once.

The West Riding County Council had agreed to pay half cost (£48) of kinking a portion of the west side of Wakefield road at Stourton.

The Council decided that a circular letter be prepared and addressed to property owners at Churchfields, responsible for the repair of the Churchfields road, offering to meet them and discuss the best methods to be adopted in bringing about the much needed improvement in the roads of that locality. The Committee also recommended the improvement of the causeway opposite Mr. Squire Marshall's shop at Stourton, the Leeds Corporation having agreed to remove the electric cable-post situated there.

Mr. James Hargreaves proposed the confirmation of the minutes, and the Chairman seconded.

Mr. Stead said he had been asked to remove the registration of slaughter houses, and the Council decided to refer the question to the Sanitary Committee.

ation and had seen the ploughs used by them, and he recommended to be bought, he thought would give satisfaction. As to the main road improvement at Stourton, the County Council had consented to pay half the expense, but the Committee in an interview with Mr. Edwards had been asked to understand that there would be no objection to the work being done, if it wasn't all done in one year. It had been decided that a further application be made for the whole of the cost. Speaking of the improvement of Mr. Marshall's shop, he said that if the flagging was carried, say one hundred yards up the road, it would considerably improve the footpath, and besides the removal of the electric wire pillar as to position the Council might decide upon, the postal authorities, he thought, would also consent to a re-arrangement of the post staves which were rather objectionable. In regard to amicably settle the question of the improvement of Mr. Marshall's shop, he said that if the flagging was carried, say one hundred yards up the road, it would considerably improve the footpath, and besides the removal of the electric wire pillar as to position the Council might decide upon, the postal authorities, he thought, would also consent to a re-arrangement of the post staves which were rather objectionable. COMING EVENTS REGISTER.

The proprietors of this journal have now opened a
register at which the above notices can be placed in which
to record coming events in the district. The plan is
as follows:—As soon as a date for any event is decided
upon, the fact should be notified to this office, when
it will at once be entered in the Register Diary and
will also be advertised in a single line under above
date in the current issue of this paper. For this
registration, a fee of 6d will be charged, and any such
person desirous of ascertaining what dates are open,
and of making a list of the events, will have the privilege of
inspecting this register free.

HUNSLY BOARD OF
GUARDIANS.

CHRISTMAS ARRANGEMENTS.

BEER FOR THE INMATES—AN
INEFFECTUAL PROTEST.

A meeting of the above Board was held at
the office, Hunstall, on Wednesday last, Mr.
G. Fryer (vice-chairman) presiding. The
members present were Messrs. Dickson,
son, Mr. Woodcock, Rev. A. J. Irmis,
Messrs. Hargreaves, Butterick, Seddon,
Charlesworth, Robb, Banks, Edwards, Tomlinson,
Knight, with the clerk (Mr. Mee) and
assistant clerk (Mr. Ward).
CHILDREN'S HOME COMMITTEE'S BUSINESS.
At a meeting of the above Committee a
letter was read from Mr. Bagnall, Local
Government Board Inspector, stating that
he did not see any objection to the Guardians
taking as many children into the Home as
they thought fit, providing there was 380
cubic feet of air space for each child.
The Clerk stated that this arrangement
would allow 118 inmates in the four houses.
A sketch plan was submitted by Mr. Rich-

ardson, architect, showing proposed alteration
of No. 5 home for the accommodation of
infectious diseases. Certain alterations were
suggested by the Committee. As a result
of an interview the Clerk had with Mr.
Lolley, the contractor for the Home, it had
been arranged notwithstanding the long
period since the work was completed, that
the manholes and drains should be put into
proper order by Mr. Lolley. In lieu of a
charwoman being engaged at the Home it
was recommended by the Committee that an
industrial trainer in sewing be engaged, who
should be required to make all clothing,
except boys' suits, teach the girls to sew, and
act as relief mother if required. An invitation
from the Vicar of Oulton and the local
schoolmasters, for the boys of the Homes to
take a scholars' football league was accepted,
and instructions given for the purchasing of
a number of football jerseys.
Mr. Butterick proposed the confirmation
of the minutes, and in doing so pointed out
that the Committee wished, as expressed in
the minutes, to have control upon them
power to supervise all children sent away to
situations, etc., and look after their welfare.
Mr. Edwards seconded the motion, which
was carried.

CHRISTMAS GIFTS.
Mr. A.H. Cooke again estimated his willingness
to give as in previous years, 1s to 1s in
and out door poor, and 6d each to the children.

Mr. Charlesworth also offered to give one
pint of beer each to the men and half-pint to
the women.

Mr. Knight: Hear, hear. I propose Mr.
Charlesworth's kind offer be accepted.

Mr. Tomlinson seconded.

Mr. Edwards: I think with all respect to
Mr. Charlesworth, that the inmates will be
better without the beer than with it. They
will get out of the house the day after
amongst their friends and they then get more
than is good for them. I propose, as an
amendment that the offer be not accepted.

Mr. Robb: I think the proper course in
this matter would have been for Mr. Charlesworth's offer to have been brought before
the Home Committee first; I second the amend-

ment.
Mr. Charlesworth: I notice Mr. Cooke
does not make his offer to the Workhouse
Committee, the whole Board should deal
with a thing of this kind and not the Home
Committee.

Mr. Hargreaves: Were there any ill
effects last year?
Mr. Seddon: One or two inmates got three
pints.

Mr. Knight: Three pints of beer will do
no harm. (Laughter).

The amendment (not to accept the offer)
was then put to the meeting only Messrs.
Edwards and Robb voting in support; against
the amendment, Messrs. Hargreaves, Charlesworth, Irmis, Banks, Tomlinson, Knight, the
Chairman, and Mrs. Woodcock.

The resolution was then carried, Mrs.
Dickenson voting with the majority; Mr.
Butterick was neutral.

WORKHOUSE VARIETY COMMITTEE.
A list of names received from Mr. W. D.
Smith, promising to arrange a suitable entertain-
ment for Christmas Day. The Clerk
reported that having been informed that a
man named Monaghan was reported to have
been found drowned in one of the Halifax
docks the past few months, he had written both
to the Borough and West Riding Police, but
was informed that they had no record of such
an event.

The Ladies' Committee reported that they
found everything satisfactory. Permission
was given the Master to buy some art muslin
and other things for additional decorations
at Christmas.

The Master reported that the Nurses
were working with the help of friends of getting
up an entertainment for the patients in the
Infirmary sometime during Christmas week.
Permission was granted. The same official
also intimated that Captain Gifford, of the
Church Army, had applied for permission to
give a series of lantern lectures to the old
women. The Master was instructed to
enquire the subjects of the lectures and the
dates suggested, and to point out that if
permission was given it must be for the
inmates generally. It was reported that
Michael Fielding, 68, who absconded in Sep-
tember, 1899, returned on Monday night
very drunk, also that Sarah J. Coatham, 31,
married, had returned late from Church many
times, and on Friday returned from leave
the worse for drink. Ordered that she be
kept in until she takes her discharge. The
minutes were confirmed.

MISCELLANEOUS.
Accounts were received for payment amount-
ing to £207 5s 7d.

Mr. J. Coop and Mr. W. J. Green voted
thanking the Guardians for increase of salary
granted at the previous meeting.

Thanks were expressed to Miss Maude, of
Middleton, for a parcel of papers.

The Master reported 181 vagrants relieved
as against 205 during the corresponding
period last year.

ROTHWELL CRICKET CLUB
ANNUAL SOCIAL.

The annual tea and social in connection
with the above club was held on Wednesday
evening last, in the Mechanics' Hall, and was
attended by about 140 persons. About 140
sat down to an excellent tea, over which the
following ladies presided:—Mrs. Wm. Har-
grave, Mrs. Pierson, Mrs. Buck, Mrs. Hart-
man, Mrs. Atkinson, Mrs. W. E. Richardson,
Mrs. A. W. Seaton, Mrs. J. Hired, Mrs. G. Wil-
son, and Mrs. Newsome. After tea, a pro-
gramme of 20 dances was gone through, by
about 160 guests, Mr. M. Fowler (piano), and
Mr. B. Day (violin) applying the music.

The M.C.'s were Mr. J. Hired, Mr. W. Ched-
wick, Mr. A. E. Baines, and Mr. R. N. Lunn.
The evening was a most pleasurable one,
and the financial result we understand will
very materially assist in bettering the club's
position.

ALL COUNTY PEOPLE should read the *Star* and *World*,

SMOKING CONCERT AT THE ROTHWELL MECHANICS' INSTITUTE.

For an unbroken period of five years, Mr.
S. Morton has held the position of secretary
to the Rothwell Mechanics' Institute com-
mittee, during which time the institution
has entered upon a new era, the old-time
dreary and almost lifeless order of things
when the place was practically only a read-
ing room, has been given place to a more
progressive programme, which has resulted
in the rooms being now—as they should be
—used by scores throughout the week for
purposes of recreation and mutual inter-
est. The change has been a very happy one,
and has brought about during Mr. Morton's
term of service, as secretary, and the work-
ing of the oracle in conjunction with the
extension and alteration of the buildings,
has certainly been a great amount of extra
official work, which has been cheerfully and
efficiently attended to by the general secre-
tary. A scheme for recognizing Mr. Mor-
ton's services in a tangible fashion was
modeled some months ago, and has now taken
definite form. It has been decided to give
him a testimonial from the members and
friends, and in addition to numerous sub-
scriptions already received, the proceeds of a
"Smoker" held in the hall on Monday
night last, are given to the fund.

Local and neighbouring vocalists willingly
gave their services at Monday night's gather-
ing, which was of a free and easy character,
the voice of music and the burning "wood"
coming to the company into a happy
state of mind. Mr. Lawford Firth on the
invitation of the chairman put aside his much
prized bar, and opened the concert with one
of his brilliant pianoforte effusions, also
willingly accompanied by the same item.

The chairman, Mr. H. J. Martin, then
gave a short address, in which he explained
the object of the gathering, and said that all
would no doubt agree with him when he
said that Mr. Morton's services to the insti-
tute were of a most valuable nature, and
called for some recognition. Five years ago
the Institute was something like a museum;
they had tried to turn it into a people's
palace, and had to thank Mr. Morton for the

BENTLEY'S YORKSHIRE BREWERIES

GENERAL MEETING.

The ninth ordinary general meeting of the shareholders in Bentley's Yorkshire Breweries (Limited) was held on Monday at the offices of the company at Woodlieford. Colonel T. G. Hawdon (chairman of directors) presided, and there was a fair attendance of shareholders.

In moving the adoption of the report and balance sheet, the Chairman said they had managed to keep up their returns as well as any brewery in the district, and they could not have done so if the beer had not been of uniformly good quality. The Chairman

It was put on as a war tax, and should have been borne by the customer, but that was found to be impracticable, otherwise they would have had a larger sum to carry to

reserve. The net profits for the year amounted to £55,041 8s 1d, the largest sum ever made by the company, and £3,846 more than last year, which, together with the balance brought forward of £1,691 12s 4d, makes a total balance of £56,732 0s 5d.

and is apportioned as follows:—Debtenture and loan interest, £25,955 3s 10d; interim dividends on preference and ordinary shares to 31st March, 1900, £12,674 16s; dividends on 6 per cent preference shares to September, 1900, £8,027 0s 0d.

ber 30 £0.867 8s; dividends on ordinary shares to September 30, at the rate of 7 per cent for the half-year, (making 6 per cent for the year), £8,225; carrying to reserve (und £981, in addition they were able to carry forward to next year's account £1,969.

Dealing with the various items in the accounts, he observed that £17,084 was set down for repairs, renewals, and depreciations an increase for the year of about £1,418. It was necessary that they should keep their property in perfect order and the plant

property in perfect order and the plant up to the mark. On the credit side they had £15,977 for rents receivable—an increase of £1,360, which was obtained without causing anything like dissatisfaction to any of their tenants. He congratulated the company on

the strong position it held. They only owed the public about £46,000, which was about a third of the liquid assets and only one-half of the book debts. In concluding, the Chairman made a sympathetic reference to Mr White, one of the directors who had died

Mr C. F. Hoyle, the managing director, spoke of the scare created by the discovery of beer poisoning in Manchester. Brewers had naturally thought that if they purchased

an article it would be pure if sold to them as an edible, but after 33 years' experience he always fought shy of sugar or any other commodity if offered at an extraordinarily cheap rate. They were fortunately in a position at Woodlesford, owing to the nature

of the water, not to require much glucose, and it was only for equalising gravities that they made use of it at all. What they did use was made from cereals. He believed that when more light was thrown on the

subject it would tend to corroborate the theory that it was only from one source of manufacture that all the trouble had arisen. The original cause was the use by the glucose manufacturer of sulphuric acid containing arsenic, and that sulphuric acid was a cheap

sort called vitriol, whereas if they used the ordinary sulphuric acid distilled from brimstone or sulphur, they would get it guaranteed free from arsenic. As soon as the alarm spread to Leeds it behoved their company to give evidence to the public that it was not

give evidence to the public that its manufacture was free from suspicion, and he held the certificate of Mr. Fairley, the Leeds analyst, showing that all the samples he had submitted were free from the taint of arsenic. He hoped that there would be no more

Mr F. W. Bentley, seconding the Chairman's resolution, said the stability of the Company was undoubted. They had practically no floating debt of any kind. The

heavily indebted of any kind. The only debt not funded consisted of the ordinary trade liabilities, which were met by the Ordinary trade creditors. The small amount obtained from the bank was advanced against properties purchased in the last two years.

On the motion of Mr C. S. Burnell dividends were declared of 6 per cent on the Preference Shares and at the rate of 7 per cent per annum on the Ordinary Shares for

months ending September 30, making 6 per cent for the year.

Mr F. W. Bentley and Mr G. F. Bottomley were re-elected directors, and Messrs. Beavers & Adgie were re-appointed auditors.
